Establishing Africa As A Key Global Solution Provider Through Technology.

We exist to establish Africa as a key global solution provider by transforming and reforming Africa in order to increase access to interoperable digital borderless solutions and resources to improve the lives of people in Africa and around the world with a focus on health, food security, education and sustainability using Kingdom principles to train and equip.

Growing at unprecedented rates, and shaped by forces both familiar and new, dozens of African cities will join the ranks of humanity's biggest megalopolises between now and 2100.

While everyone want a piece of Africa because the tide is turning and with growing infrastructure and a vibrant, hungry youth, Africa is set to run the world.

Study to shew thyself approved unto God, a workman that needeth not to be ashamed, rightly dividing the word of truth. But shun profane and vain babblings: for they will increase unto more ungodliness.

2 Timothy 2:15

THE FUTURE OF AFRICA IS SET.
WE ARE EXCITED TO BE A PART OF IT.

THE WORLD'S FIRST breach-proof and smart luggage zip

You will no longer have to wait till you get to your final destination to know how your check-in luggage was handled or manhandled. From your phone you can now monitor how well your luggage has been handled, where exactly it is, and how secure it was the entire time. In case it is lost, you will locate it for up to 144 hours.

A smart, secure and portable last-mile logistics device

In a world where the future of shopping is heavily e-commerce, the home or office delivery systems face a high theft rate of delivered packages from front porches. We have the perfect solution that can be used as single ownership or shared ownership. Receive your packages unphilfered, every time you make an order and are not home to receive it.

THE WORLD'S FIRST 26-inch angel light that fits in your pocket

A foldable and programmable algel light/ring light that you can conveniently slide into your cargo pants side pockets in between shoots or wile not in use
